

DURASEAL ZERO™

DuraSeal Zero™ is a Zero VOC clear acrylic waterborne finish designed to protect and beautify tile, concrete and masonry surfaces. DuraSeal Zero™ protects against all organic stains including cooking oil, grease and beverages. It may be used indoors or outdoors and is extremely easy to apply and maintain.

Duraseal ZERO™ is a non - toxic sealer which can be applied to new or old concrete. It contains no solvents and its V.O.C. (Volatile Organic Content) is zero as determined by independent laboratory testing done in accordance with EPA Method 24.

DURASEAL ZERO™

Where do I Use Duraseal ZERO™

- ◆ Concrete & Stucco Walls
- ◆ Concrete & block
- ◆ Precast and poured concrete
- ◆ Brick & Re-pointing Mortar
- ◆ Slate and Flagstone
- ◆ Unfinished Wood

Key Advantages

Duraseal ZERO™ provides excellent water repellency and is suitable for both dry and slightly damp surfaces. It ensures a long lasting barrier and is impermeable to water vapor. Duraseal ZERO™ shows superior resistance to water, acid rain, efflorescence, alkalis, acids, ultra-violet light and staining. It also minimizes iron staining by helping prevent reinforcing steel from corroding and deteriorating due to water intrusion. It greatly improves the resistance of concrete to Freeze-Thaw damage and salt penetration.

What is

Duraseal ZERO™ ?

Duraseal ZERO™ is a premium quality high gloss, non-yellowing, sealer that is a state-of-the-art proprietary formulation. Duraseal ZERO™ coats concrete with a chemically bonded acrylic film that deepens colors and enhances the look of pigmented or decorative concrete. Duraseal ZERO™ resists discoloration from ultraviolet light exposure and keeps its gloss finish longer than standard concrete sealers. Duraseal ZERO™ will retard efflorescence while resisting oil, grease, chemical, and food stains. Duraseal ZERO™ eliminates concrete dusting while protecting concrete against salt and water penetration.

All of these benefits are now available in an easy to use **ZERO VOC** formulation.

***Duraseal ZERO™ is the clear choice
for industry professionals on all LEED
and Green Building Projects!***

DURASEAL ZERO™

Is Excellent for use on

- ◆ Concrete Walls & Floors
- ◆ Precast Concrete
- ◆ Hospitals & Schools
- ◆ Equestrian & K-9 Projects
- ◆ Residential Applications
- ◆ Walkways & Sidewalks
- ◆ Commercial & Industrial

**Anywhere a Quality ZERO VOC
clear sealer is desired!**

Important Note:

Always test a small area of surface to be sealed to verify penetration and satisfaction of sealed appearance. Application rates will vary greatly depending on the porosity of the substrate being sealed. Average application rates are 100-300 square feet per gallon
